Communities@Work

5 to 30 Years of Service Recognised

Communities@Work Family Day Care and In-Home Care Scheme honoured carers at a Presentation Evening held at the Hellenic Club on Thursday 15 May.

A total of 21 carers were recognised for having worked with children for 5 to 30 years, some having cared for 170 children in their time at Family Day Care.

Heather Baldock was awarded for 30 years of service and is the longest serving carer with the Communities@Work scheme. Heather is dedicated carer who has adapted to changes over the years and treats the children as one of her own family members.

The Communities@Work Family Day Care Scheme provides quality care for children in home environments of approved Family Day Care carers.

The hours of care are flexible and include full-time care, regular part-time care, roster care, before and after school care, 24 hour care, casual on-call and weekend care. There are options available to suit just about any need.

If you are interested in becoming a carer, or would like further information about Family Day Care, please call Communities@Work on 6231 2835.
