Specialised training rooms now operating at the Tuggeranong Community and Function Centre

The Federal Member for Canberra, Ms Annette Ellis MP, today opened new facilities at Communities@Work that will improve vocational education and training for the Tuggeranong region.

“The NuSkills Learning and Development Centre rooms, which include two refurbished and upgraded training and meeting rooms and the installation of Audio Visual equipment in both rooms, will enhance students learning. They will also allow trainers a high degree of flexibility on what they offer to students using the interactive capabilities now available at the Centre”, said Noel Jensen, Manager of Nuskills Learning and Development.

“It has been a long held dream of NuSkills to have high quality training rooms and while the journey has been long it has been well worth the wait”, continued Mr Jensen.

The rooms at The Tuggeranong Community and Function Centre are used by Communities@Work, NuSkills and other community organisations and training providers.

NuSkills Learning and Development, is Communities@Work’s training service provider. It is a Registered Training Organisation (RTO) and a leading provider of flexible, innovative training and professional development specialising in the community services and health industries.

The grant to redevelop these facilities for the NuSkills Learning and Development Centre was provided under the Australian Government’s *Investing in Community Education and Training* (ICET) element of the *Teaching and Learning Capital Fund for Vocational Education and Training* (TLCF (VET)) which funds the purchase, construction, fit-out or refurbishment of facilities for vocational education and training.
