## **Celebrating Children's Week "A Caring World Shares"**

Children's Week is a universally celebrated week from 20-28 October. Communities @ Work Early Childhood Services along with the Richardson Family Links program will be taking part in the Children's Week 2007 in a grand way.

A Caring World Shares is the week's theme with a special focus on "Water". The 10 Early Childhood Services are busy planning exciting and interesting activities that will take place throughout the week. Children and families and the local community are invited to share this special week with us.

The celebrations will provide lots of picnics, art shows, breakfasts, tales of the deep, igloo building, visits to Questacon, ice cube painting, visits to Tidbinbilla and Exotic Pets demonstrations just to name a few. Children's week promises lots of fun with important messages shared about water, habitats and conservation.

For a detailed calendar of events please visit our website [www.commsatwork.org](http://www.commsatwork.org) or contact the Client ServiceTeam on 1300 212 273.
